

Project Demo Planning

Date	15 March 2026
Team ID	
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the Credit Card Approval Prediction System and explain the project objective.	1	Puduvil Durga Pavan Kumar
2	Problem & Solution Overview	Explain the existing manual screening problem and the proposed machine learning solution.	2	Puduvil Durga Pavan Kumar
3	Dataset & Machine Learning	Explain data preprocessing, feature engineering, model training, evaluation, and Random Forest model selection.	3	Puduvil Durga Pavan Kumar
4	Application Demonstration	Demonstrate the Home Page, Prediction Form, applicant data entry, and prediction process.	3	Puduvil Durga Pavan Kumar
5	Prediction Results	Demonstrate the approval/rejection result, confidence score, and applicant summary.	2	Puduvil Durga Pavan Kumar
6	Conclusion & Future Scope	Summarize the project outcomes, limitations, and possible future enhancements.	1	Puduvil Durga Pavan Kumar

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project and explain the need for automated credit card application screening.
2	Solution Overview	Explain the machine learning workflow, classification models, Random Forest selection, and Flask integration.
3	Live Feature Demonstration	Demonstrate applicant data entry, prediction generation, confidence score, and applicant summary.
4	Q&A Session	Answer questions regarding the dataset, preprocessing, machine learning models, application workflow, and future improvements.
